Bath Excellence

Island Life

\$35,000 to \$55,000

This 1960s home was due for an update. To modernize the space, Armada Design & Build altered the walls in part to expand the shower within the greater room. Marble for the floors and shower adds elegance. A polished porcelain tower contains the showerhead, flanked by double benches, while a free-standing bathtub lends itself toward an island feel and a clean, soft, modern aesthetic.
