

Beach House Refined

Whole House/Rebuild, Less than \$300,000

This home feels fresh, airy, and beachy thanks to light and bright choices from the doors and trim, to the counters, walls, and even the light gray floors. “A major overhaul of this 3,000-square-foot home includes a kitchen remodel, three-and-a-half baths, wet bar, flooring, lighting, doors, trim, and paint throughout the home,” according to the design statement. “The remodel literally began at the front door, and new finishes and trims were selected throughout. Built-in cabinetry acts as a bar for family gatherings, but looks elegant enough to greet visitors.” **Armada Design & Build, Inc., armadabuild.com**
